

Rafiki Mwema Presents

Understanding Childhood Trauma Three Day Workshop

It is a pleasure to bring to you the Building Attachments (PACE) Training Workshop, facilitated by Anne-Marie Tipper, Director and Founder of The Annex Project (UK) and Rafiki Mwema.

Participants will gain a better understanding of the impact of adverse childhood experience and how to connect to children and young people who show complex and often, difficult and challenging behaviours.

This workshop brings the participants a rare and unique opportunity to explore the impact of trauma on young children and teenagers, through the relationship of one of our boys, Peter, from Rafiki Mwema and Anne-Marie.

Understanding Childhood Trauma Three Day Workshop

Holiday Inn Melbourne on Flinders
23-25 March 2020 - 9am - 4pm
